

The International Sin Set

My Life with the Thrill Kill Kult

I don't hurt anybody by walking barefoot
I don't hurt anybody by working in the garden
I don't hurt anybody by just running around at night
I don't hurt anybody
I just want to be myselfThe heat is on
Watch out baby
The heat is on
Watch out baby, here we comeThe heat is on
Watch out baby
The heat is on
Yeah, we're wild and on the runThe international sin set
A scene of crime, it's hot when you're in
The international sin set
For international sinThe international sin set
A scene of crime, it's hot when you're in
The international sin set
For international sinThe heat is on
Watch out baby
The heat is on
Watch out baby, here we comeThe heat is on
Watch out baby
The heat is on
Yeah, we're wild and on the runThe international sin set
A scene of crime, it's hot when you're in
The international sin set
For international sinThe international sin set
A scene of crime, it's hot when you're in
The international sin set
For international sinDidn't somebody tie you up the other day?
Yeah, why did they tie you up? 'Cause I said, I was leaving
Didn't somebody tie you up the other day?
Yeah, I was forced to stay some place like a slaveSounds real groovy and the house is smooth
There's a devil on the floor and he wants to groove
To the kool, kool rhythm of a dangerous beat
He's shakin' up your body to confuse your feetWell, it's time to move it so let's get to it
Trippin' on the bass, ya know it makes me want to do it
To the ladies of lust that you'll never forget
Keep on pumpin' to the rhythm of the international sin setThe international sin set
A scene of crime, it's hot when you're in

The international sin set
For international sinThe international sin set
A scene of crime, it's hot when you're in
The international sin set
For international sin
