

War Paint

Shampoo

Yeah, war paint, yeah
War paint, put it on, put it on
Night is over, lipstick heaven
Bet you can't get it from the 7/11 Charcoal is our body armor
Blacked our faces
From runny mascara
Perfect make up, we don't care We've got tangles in our hair
Get your masks on, put it on if you dare
Yeah, yeah, slapping on the war paint
Got no class but we got the style War paint, slap it on when we do war
War paint, if you can't get a head
Get the right clothes on
We don't wanna go to heaven All we want is war paint
Drunken nights are such a killer
Smudge your face on your pillow
Made you look and I made you stare Made you lose your underwear
Made you lose your underwear
Made you lose your underwear We've got tangles in our hair
Get your masks on, put it on if you dare
Yeah, yeah, slapping on the war paint
Got no class but we got the style War paint, slap it on when we do war
War paint, if you can't get a head
Get the right clothes on
We don't wanna go to heaven All we want is war paint
Drunken nights are such a killer
Smudge your face on your pillow
Made you look and I made you stare Who wants to be so
Who wants to be so
When you can be so radical
