

How Sweet It Was

A-ha

Uh, yeah, that's alright
Lend us a voice in this howling night
Just about a month ago
You made a promise, babe, not to go
Yes, as you did now
You were the heart and soul
One to the nightfall, one to the stars
One to the haunted fools we are
One to remember, one to recall
One to acknowledge just how sweet it was
Yeah
(Just about a month ago)
Yeah
(You make a promise, ain't that so)
Yes, you did now into this howling night
You got, you got
You got, you got me so
You got me so low
I wouldn't lie, babe, not again
It's such a crime to while away my time
One to remember, one to recall
One to acknowledge just how sweet it was
We were so happy, we were okay
We let our good thing, honey, just slip away
Lend us a voice
In this howling night
One to the nightfall, one to the stars
One to the haunted fools we are
One to remember, one to recall
One to acknowledge just how sweet it was
One to the nightfall, one to the stars
One to the haunted fools we are
One to remember, one to recall
One to acknowledge just how sweet it was, yeah
