Feeling You

Acoustique Parfum

There is this guy that I'm diggin'
What I've been lookin' for
Don't know where to begin
We've been talkin'
Not enough
But when we do talk the things that he says I do love
When I see him and we talk
There is this vibe between us I don't wanna stop
So original and so deep
This guy is just like me
Hey, uh, let's try something
Let's try to be together
Maybe wrong choice of words
I just want time together
Who knows, maybe we will
We'll really like each other
Give me a chance
Maybe I'll change your mind forever
I think you need someone
Like me to help you to
Clear your mind way off stress
And that's what I will do
With my laughter, smile, crazy thoughts
Who'd never knew
That I'd end up really feeling you
He told me I was beautiful
But what if he tells that to every girl he talks to
'Cause I'm not the only
But actually wish that I could be
He's what I've been lookin' for
Like no other guy that I know
Because he is so right
I swear I think about him from morning 'til night
Hey, uh, let's try something
Let's try to be together
Maybe wrong choice of words
I just want time together
Who knows, maybe we will

We'll really like each other

Give me a chance
Maybe I'll change your mind forever
I think you need someone
Like me to help you to
Clear your mind way off stress
And that's what I will do
With my laughter, smile, crazy thoughts
Who'd never knew
That I'd end up really feeling you
He's got this hypnotizing smile
That makes me stop and realize he's good looking
But that is not what attracted me, tacted me
So fabulously matched me to him
It was his style and persona
How he does what he does
His whole walk
How he talks is true
So maybe we should
And we could
Put all things aside
Spend some time
'Cause I'm feeling you
Hey, uh, let's try something
Let's try to be together
Maybe wrong choice of words
I just want time together
Who knows, maybe we will
We'll really like each other
Give me a chance
Maybe I'll change your mind forever
I think you need someone
Like me to help you to
Clear your mind way off stress
And that's what I will do
With my laughter, smile, crazy thoughts
Who'd never knew
That I'd end up really feeling you
There is this guy that I'm diggin'
(That I'd end up really feeling you)
[repeat]
