Hearts on Fire

John Farnham

Last rites, first blood
Maybe a dream but then it's clear enough
Can't hide, can't sleep
Is it the vision or the body heat?True love's when your heart's on fire
If I'm the paper, you're the sparkin' wire
True love's when your heart's on fireOne step too deep
I made a promise now it's hard to keep
One word, one kiss
Come any closer and you burn like thisTrue love's when your heart's on fire
If I'm the paper, you're the sparkin' wire
True love's when your heart's on fireTrue love's when your heart's on fire
If I'm the paper, you're the sparkin' wire
True love's when your heart's on fireYou're talking trouble when you move this fast
You're never certain that the light will last
You've got to wonder when the place will blow
Leaving nothing but a bed of coalsI made a promise not to fall this time
And not to watch another love go blind
Not to let another flame burn low
Now I'm praying that you won't let goWell, alright, it's hot stuff
It's hard to focus but it's clear enough
The weak run, the lost hide
The strong forever hold the flame insideTrue love's when your heart's on fire
If I'm the paper, you're the sparkin' wire
True love's when your heart's on fireTrue love's when your heart's on fire
If I'm the paper, you're the sparkin' wire
True love's when your heart's on fireTrue love's when your heart's on fire
If I'm the paper, you're the sparkin' wire
True love's when your heart's on fireTrue love's when your heart's on fire
If I'm the paper, you're the sparkin' wire
True love's when your heart's on fireTrue love's when your heart's on fire
I'm the sparkin' wire, you got my heart on fireTrue love, true love, true love
True love, true love
