I Tether (ft. Wicca Phase Springs Eternal)

GOTHBOICLIQUE

Passing on, let me go, you make me feel so alone.

You put me inside a trap; credit cards, shopping bags.

You put me in darker light, shadows I turn off the lights. It's how you make me feel the night, silver blades, body type.

Passion like you saw me in rhythm and in death,

there's no conversation if you're choosing up like that.

There's no inspiration when I call to call me back.

Girl I want you now,

don't do me like that.

I try to lock it down, I tether.

Call you by darker names forever.

I want it, so I take it.

You cut through me, I can take it so I take it,

You cut through me, I can take it so i'll take it,

I can't take it...
