

Only He Can Heal Me

Bloc Party

[Intro]

(For only he can heal me)[Verse 1]

There are times I get to feeling
That this world has stole my grace
When every day feels like a hustle

Every day I'm saving face
Tell a lie to make the paper

Put a little coin away

It's never-ending[Verse 2]

When the trappings of the body
Lead me to that hopeless place
And I feel my spirit crumble
Under strain and under guilt
Lay me down in rivers cleansing
Where the tall grass grows and grows
And let me wait until

My saviour comes home[Chorus]

For only he can heal me
Help me overcome it
For only he can heal me with his touch

Help me overcome it[Verse 3]
From the towns and from the cities
Came a feeling of defeat

From the lame and from the wretched
Pouring forth unto the street
Lead me to my only temple
Where I overcome defeat
And let me rest there

By my saviour's feet[Chorus]

For only he can heal me
Help me overcome it
For only he can heal me with his touch

Help me overcome it[Outro]

(For only he can heal me)

(For only he can heal me)

(For only he can heal me)

(For only he can heal me)
