

# Breathe and Be Brave

Oliver Tompsett

Pack up the boxes and load up the u-haul  
Leave the apartment key  
10 years of memories in your rear view mirror  
The roads getting harder to see

Stay on the highway till you need a fill up  
Donâ€™t wait till the gas runs out  
Then back on the road till you see the exit  
That leads to the deep down south

And boy, was this just a plan to escape  
Are you simply just running away  
Is there more to this move that you made  
And boy, if you trust what you came here to do  
Donâ€™t let anyone take that from you  
Its the music youâ€™ve come to engrave  
Now breathe and be brave  
Breathe and be brave

Loading the boxes in your new apartment  
Set down your unplayed guitar  
Unwrap the photos of friends and the family  
So life back home wonâ€™t seem so far

You donâ€™t know a soul here  
But youâ€™ll make a home here  
Now push all your worries aside  
You left with a purpose and came with a mission  
And now you have finally arrived

And boy, is this all that you thought it would be  
Do your words feel like theyâ€™re flying free  
Is this all that you dreamt when you dreamed  
So boy, just remember what youâ€™ve got to do  
Donâ€™t let anyone take that from you  
Itâ€™s the music youâ€™ve come to engrave  
Now breathe and be brave

Be resilient  
Donâ€™t let your fear run you out of town

Do what you came for  
This is where youâ€™ll finally be found

And boy, is this where you believe you should be  
Cos itâ€™s your choice how far youâ€™ll succeed  
And no matter how lost you may feel  
Be brave, this is the life that you came to pursue  
Let the music live inside of you  
Donâ€™t let anything stand in your way

Breathe and be brave  
Yes, breathe and be brave  
Breathe and be brave
