Damage

Red

(Hear me)
Now the damage is done
I cant escape, cant run
Cant undo what Ive done
(I am waiting)
Do you hear me now
Will you answer me
Are you even there
(Dont look away)All I do is damage, damage
Its destroying me
All I do is damage, damage
Im sick of misery(Hear me)
Im human debris
I am crashed and bent
Im a catastrophe
(I am waiting)
Im human debris
I am crashed and bent
Im a catastropheAll I do is damage, damage
Its destroying me
All I do is damage, damage
Im sick of misery
Take this away
It was just a mistake
Save me
All I do is damageI am covered in shame
There is no one to blame
I am covered in shame
I have no one to blame
I am covered in shame
I have no one to blame
Shame! I am covered, I am covered
Shame! I am coveredTake this away
It was just a mistake
Save me (Im a catastrophe)
All I do is damageAll I do is damage, damage
Its destroying me
All I do is damage, damage
Im sick of misery

Damage, damage (Are you even there?)
Its destroying me
All I do is damage, damage (Will you answer me?)
Im sick of the misery
