

# Angels

## Stretch Princess

I never thought Id leave you  
I cherished the day I found you  
    Oh, Im just a little naive  
I cant live with or without youI know that nothings perfect  
    You cant say the words to keep me here  
I needed some comfort but love leaves againBaby, dont tell me its alright  
    When everythings all so wrong  
    I cant stop thinking about you  
    Can somebody hear me?Calling all little angels  
        Cos Im in trouble again  
        So Im calling all little angels  
        If theres anybody out there  
    Oh, I need a friendI think good things about you  
        All the time that Im without you  
        Oh, Im just a little confused  
    Say you love me, wont you?And I know that its not easy  
        You cant say the words I need to hear  
I need some comfort and love leaves againBaby, dont tell me its alright  
    When everythings all so wrong  
    I wont stop thinking about you  
    Can somebody hear me?Calling all little angels  
        'Cos Im in trouble again  
        And Im calling all little angels  
        If theres anybody out there  
    Oh, I need a friendWe could get high  
    We could be anything we want to be  
    We could reach for the sky, so why?  
        You could have told me that  
Heaven would only help me this timeIm calling all little angels  
        Cos Im in trouble again  
        And I'm calling all little angels  
    If theres anybody out thereCalling all little angels  
        'Cos I'm in trouble again  
        So I'm calling all little angels  
        If theres anybody out there  
        Oh, I need a friend
