

Screen

Brad

Here is the best thing that I ever wanted
I'll do my best to justify
All of your actions
And the way we did our hair
and
The clearing of the truth as I see
So hold on to nothing
But lay out a bed
Of you lords favorite rings
Hold on
minds, be real
And you'll never know just dark
This screen could be
The reason I'm living high at the moment
Is
probably hard to understand
Lay back and never let the wanderer
Get away and run till that's all that I can do
And
you'll never know just dark
This screen could be
Will you ever know just dark
This screen could be?
Here is the
best thing
That I ever wanted
And I'll do my best to justify
All of my actions, so be real
Sha na na...
