Bad Idea

Yuna

What is this I feel about you?
hoping not to make it an issue
I don't wanna be nice at all
you're only causing trouble,
and you can stay if you want to
And being in love with you seems like a really bad idea
but when I'm not with you I'm wishin I could have you near
please do not allow me to miss you
I'm tryin my best to keep my distance
I don't wanna give you my heart
But it seems to like you a lot
do you feel the same way too?
But being in love with you seems like a really bad idea
but when I'm not with you I'm wishin I could have you near

I'm never gonna, never gonna, never gonna
be that girl again who trust you when you're over
and falling in love with all kind of boy who will only break my heart to a million pieces
Oh I've been through it before I've had enough heartaches
now I'm trying be smart about it
but you're just crushin like the waste
now all I think about is you
But being in love with you seems like a really bad idea
but when I'm not with you I'm wishin I could have you near
being in love with you seems like a really bad idea
but when I'm not with you I'm wishin I could have you near
you near, you near, you near
such bad idea
Okay
