Trouble You a Trouble Me

Ini Kamoze

Down in the region where I rest
It's the survival of the hardest
One man, well, cool, the next man, tense
Some sounds like these across the fence willTrouble you, they trouble me, no I
I would'a just flash me things
Bubble you, they bubble me, yes I
Forward ina me ringTrouble you, they trouble me, no I
I would'a just flash me things
Bubble you, they bubble me, yes I
Forward ina me ringSome man just born to nice up, dance
See my love down in tight romance, yea
The essence of ishence fills the air, yea
You're free to look but don't you dare stareTrouble you, they trouble me, no I
I would'a just flash me things
Bubble you, they bubble me, yes I
Forward ina me ringTrouble you, they trouble me, no I
I would'a just flash me things
Bubble you, they bubble me, yes I
Free to flip and come inAnd in I region forces raid, wrong way
Man, pick up corn for razor blade
The nobles of English would feel sad, no doubt
When some thing's good, we say "It bad Iah"Trouble you, they trouble me, no I
I would'a just flash
Bubble you, they bubble me, yes I
Forward ina me ringTrouble you, they trouble me, no I
I would'a just flash me things
Bubble you, they bubble me, yes I
Forward ina me ringTrouble you, they trouble me, no I
I would'a just flashed
Bubble you, they bubble me, yes I
Forward ina me ringTrouble you, they trouble me, no I
I would'a just flashed me things
Bubble you, they bubble me
Forward ina me ringTrouble you, they trouble me
I would'a just flashed me things
Trouble you, they trouble me
