Drag You Down

Finger Eleven

It's biting, it's teething, it's biting, I'm bleeding
It's calling, it's crawling, it's calling and I'm fallingThe perfect sound of middle ground
Pull me under before I try to drag you down
Someone has to pull me under before I try and drag you
Drag you, drag you downThey're fighting, they're growing
They're fighting and they're growing
I'm biting, I'm teething, I'm biting, they're bleedingThe perfect sound of middle ground
Pull me under before I try to drag you down
Someone has to pull me under before I try to drag you
Drag you, drag you downBiting and teething and bleedingPull me under before I try to drag you down
Someone has to pull me under before I try to drag you down
Someone has to pull me under before I try to drag you down
Someone has to pull me under before I try to drag you
Drag you, drag you down
