

What's Up Now

Scary Kids Scaring Kids

What's up now I'm not giving up just yet I won't give up till I lose
Your ideas aren't fair by any means
But I'll still try to follow through
I'm stuck in a corner now with nothing left to prove
This room is filled with expressionless faces
Not one of them has a clue And you know that just won't do
And you know that just won't do Don't say you're innocent too soon
Don't say you're innocent too soon
I'll give it all away, give it all away
Give it all, everything for you What is it that makes you think that you can bend the rules?
You really think that you are off the hook
It's coming back for you
Can't run away from fate that's something we all know
No matter how much you try
You'll still have no place left to go And you know that just won't do
And you know that just won't do Don't say you're innocent too soon
Don't say you're innocent too soon
Give it all away, give it all away
Give it all, anything for you
Give it all away, give it all away
Give it all, anything for you [Incomprehensible] If it happens, then it happens
If it happens, then it happens
If it happens, then it happens
If it happens, then it happens If it happens, then it happens
What is it that you're trying to prove?
If it happens, then it happens
What makes you think that you can bend the rules? If it happens, then it happens
What is it that you're trying to prove?
If it happens, then it happens
What makes you think that you can break? Every single wish came true I will lie in front of you
I hope you're living yourself a fairy tale
And it's all downhill from here
There's nothing left to fear
So swallow your pride and choke back your tears
So swallow your pride and choke back your tears. I said what's up now
