

# Summer - Spring

## Juvelen

Hit me like a first time  
You were looking so cute  
Right there in the new  
I had to get with you

I saw you from the stage and  
You were smiling  
You were smiling  
You were looking at me  
And honey I could see  
We would be good together  
Oh ho

We'd be so good together  
I knew you'd know  
We'd be good together  
And I will show  
How right I was

I lost my faith in words  
Oh it's true  
I lost my faith in words  
But I believed in you

I lost my faith in words  
They leave me black and blue  
I lost my faith in words  
I lost my heart to you

Love is such a fine line  
Please come on in and  
Oh I just swallowed the key  
So now you're stuck with me

But nothing is forever  
That's it- right there  
Spilled out on the floor  
So what you're waiting for

But we were good together

Oh ho  
But we're so good together  
A little while ago  
But we were good together  
How could we ever flow  
All the way

I lost my faith in words  
Oh it's true  
I lost my faith in words  
But I believed in you  
I lost my faith in words  
They leave me black and blue  
I lost my faith in words  
I lost my heart to you

I lost my faith in words  
Oh it's true  
I lost my faith in words  
But I believed in you  
I lost my faith in words  
Whatever could I do  
And I wasted my time  
I tried to reason with you
