

# Slow Down

**Johnny Reid**

Hey, baby, what do you say we roll the windows down  
Get lost - take the long way around  
Feel the wind on our face  
Let the night carry us away

And - slow down

Now, baby, what do you say we just count the stars  
One by one here on the hood of this car  
Well, let 'em shine - let 'em shine all night  
Let 'em watch as I hold you tight

And - slow down  
Fall into me right now  
And - slow down

Wrap your arms around me  
Show me that you love me yeah

---
