Sunny Day

leah andreone

Can we try to rewire?
Get a screw, I got the pliers
Hold her down, I'll move with ease
Take away her feel, nothing to seeRub it till she feels fire
I'll make her start to feel desire
Tempt her wise but only tease
Take away her feel, nothing to seeGot a feeling, she's feeling nothing
And I really think she might be a machine
That breathes involuntary palpitations
A heart that cannot bleed
Overwhelm her, we could film her, everybody screamHey, hey, it's a sunny day
Happy took the rain away
There's more to it than what you got yesterday
Hey, hey, it's a sunny dayHey, hey, it's a sunny day
Take it off and fly away
The skin is showing on the birds today
Hey, hey, it's a sunny dayShow her too many things
Over stimulation brings
Lots of wants and lots of needs
Take away her feel, nothing to seeGot a feeling, she's feeling nothing
And I really think she might be a machine
That breathes involuntary palpitations
A heart that cannot bleed
Overwhelm her, we could film her, everybody screamHey, hey, it's a sunny day
Happy took the rain away
There's more to it than what you got yesterday
Hey, hey, it's a sunny dayHey, hey, it's a sunny day
(I touched the sky)
Take it off and fly away
The skin is showing on the birds today
(And I came back)
Hey, hey, it's a sunny dayHey, hey, it's a sunny day
(I touched the sky)
Happy took the rain away
There's more to it than what you got yesterday
(And I came back)
Hey, hey, it's a sunny dayHey, hey, it's a sunny day
(I touched the sky)
Take it off and fly away

The skin is showing on the birds today
(And I came back)
Hey, hey, it's a sunny dayHey, hey, it's a sunny day
(I touched the sky)
Happy took the rain away
There's more to it than what you got yesterday
(And I came back)
Hey, hey, it's a sunny dayHey, hey, it's a sunny day
(I touched the sky)
Take it off and fly away
The skin is showing on the birds today
(And I came back)
Hey, hey, it's a sunny day
