

Changed and Different

Little River Band

We used to hang around and used to be in town almost everyday
I used to be a man, you used to understand me in every way
But now you don't hardly know me, I've changed and I'm different now
Oh, you don't even know me, I've changed and I'm different now
Used to be in school, together played the fool
but I let it go
Now I'm on the street and if we should ever meet I'd let you know
How I've changed and I'm different, changed and different now, no, no
No, you wouldn't even know me, I've changed and I'm different now
You don't know but I need it so and it's
breakin' me down
The endless motels they never make me feel at home
The way I wanna feel, pretty cool sax solo we used to hang around
And used to be in town almost everyday, I used to be a man
And you used to understand me in every way
Now you don't hardly know me, I've changed and different now
Ah, look at me, you wouldn't even know me, no, no, no, no
Changed and I'm different, changed and I'm different now
