

# Under The Spell

## The Doobie Brothers

There's a stormy vision, stars before my eyes  
I seem to have this fear of the dark  
That only love defies and I'm walkin' as if in a trance  
And I'm talkin' like a man possessed  
Makes me wonder if I'll ever get straight  
When you snap your fingers and change my fate, baby  
Love gets its way and honey I must obey  
I'm under the spell  
So tough to clear out my head  
Comin' down from a night of passion  
I blacked out the moment I felt, this could only be love  
I'm under the spell  
A physical reaction, the doctors all agree  
Disillusion's all in my head, it's so real to me  
And I'm walkin' as if in a trance  
And I'm talkin' like a man possessed  
Makes me wonder if I'll ever get straight  
When you snap my fingers and change my fate, baby  
You'll get your way 'cause honey, I must obey  
I'm under the spell  
So tough to clear out my head  
Comin' down from a night of passion  
I blacked out the moment I felt, this could only be love  
I'm under the spell  
Starstruck, I stare into space  
I see the flash, then I hear the thunder  
So shocked, I'm merely a shell, it's stranger than love  
I'm under the spell  
Fools fall in love under the moonlight  
Count me as one, under the spell
