

# NewSong

## AltenKex

is your skin a nervous wreck whatever shape  
it's in and this longevity, believe me feels this good  
and what for you to worry, I wont bring you down...and there's something about this obsesssion  
and if you people manage in disposession  
all these worlds are all for me and if you never call for me  
then refrigerate after opening and take your mind off of dwelling on this  
and your kiss of tequila lips on me  
please say you're reading say you're reading meand I will sin  
and I will lie  
I will then live  
and I will die  
I will disguise  
and I will rise...  
shut up, you don't know anything...
