

Act of Faith

Presence

Act of Faith

I only knew you for a minute that first time
And we would disappear to somewhere in my mind
I want to feel your name dissolving on my lips
You're someone to kiss in the shadows
Someone to believe (?) in this

I'm in love with the looking glass girl
Hey, I'm in love with the untouchable girl

(Chorus)

Come into the,
Inside, and take a look in it through my eyes
Throw away all of your disguise
Surrender yourself to this
Act of Faith

Now, I believed in nothing
Nothing in this world
Then in the emptiness
I came across this girl
Confusingly, you came to me
And made me feel like this
You gave me hope in the shadows
You made me feel just like this

I'm in love with a looking glass girl
Hey, I'm in love with the untouchable girl

(Chorus)
