Doot do doo do doo do do doo

Doot do doo do doo do do doo

Doot do doo do doo do do doo Oh Donna, won't ya pick me up tomorrow?

I need to get out of this place, I'm in and get my life in order

Let's go far away from here and not come back until the coast is clear

I'm fallin', thinkin' of you, I count the days And all the funny things we do, I'm so sorry now you ignore me

Tried to explain, but it's such a long story

Saw you in the lobby, now you never call me

You smiled, then pretended that you never saw me Oh Donna, won't ya pick me up tomorrow?

I need to get out of this place, I'm in and get my life in order

Although this world, just might fall apart

I've got enough in my heart to get us started

Come with me, oh, I'm beggin' you please

Or just say goodbye, cause this is the end of me Doo doo, doot doo doo doo

Doot doo doo doo

Doot doo doo doo, doo doo Oh Donna, won't ya pick me up tomorrow?

I need to get out of this place I'm in and get my life in order

Although this world, just might fall apart

I've got enough in my heart to get us started

Come with me, oh, I'm beggin' you please

Or just say goodbye, cause this is the end of me

Or just say goodbye, cause this is the end of me
