

Blinking Screens

Superhumanoids

Wake me up
When we begin
Get me up
When we get in
Don't feel alright
With the lights out
But you won't disappoint
Can live without Freeze blink
Photos of believe
The screen show me
Where my friends have been
Amputee, phantom live Don't feel alright
With the lights out
But you won't disappoint
Can live without
When will you
Change your plans
How will you
Push mine down
You can't remember
How you were sleeping out
