

Stand Up

Skindred

You say just drink the tonic
And it will make you super sonic Are you trying to murder me Coz i will not let it be
Oh i know that your trying to fool me And these no way
Oh i know that your trying to use me For that you'll pay
Stand up for your rights make them know That their wrongs your right
Stand up for your rights make them know Make them know that your wrongs your right
The medication makes me hazy
And my aggression makes you taze me
This pills the size of me and i will not let it be
Oh i know that your trying to fool me But there's no way
Oh i know that your trying to school me
Stand up for your rights make them know That their wrongs your right
Stand up for your rights make them know Make them know that your wrongs your right
You gotta win the fight
Life comes out swinging punches Took a right on the chin
The crowd there der pon dem feet And everybody's screaming
With that there punch it nearly lick of your head With dem der kinda shots it could ah left you fe dead Protect
yourself at all times keep your guide up right Keep bobbing and moving and moving
And bobbing no make him out your light
You can drop him
You can stop him
He's on the ropes
Next thing he's on the ground done
