

# Loveless

## Wild Ones

Posed in gold and green  
The girls on my team  
Oh, it's a wonder how we fall asleep  
Hell on a motorbike, my mother waiting  
We meet together at the uptown scene  
And on a Friday night, I show my enemies  
The kind of loveless girl that I can be  
The kind of loveless girl that I can be  
Then I see you, oh no I can't think,  
I only know your face  
How it's burning in my eye  
I call you and you come to me  
Lit by streetlight where we meet  
Baby, baby come on dance with me  
Oh, no I won't mind if they see  
Oh baby, baby come on with dance me, oh  
Hate the red and whites of call men so clean  
Oh baby, baby come on dance with me  
Under streetlights, where we meet  
Oh baby, baby come on dance with me, oh  
Hate the red and white of call men so clean  
Oh baby, baby come on dance with me  
Ride on backstreets  
Show me a valley view  
We will never, ever run with you  
Oh it's your blue blood  
It's in the way you move  
Oh I will never, ever run with you  
I wanna make you what you're born to be  
Oh we see it all  
And now I call you and you come to me  
Oh I see it all  
Lit by streetlight where we meet  
Baby, baby come on dance with me  
Oh no I won't mind if they see  
Oh baby, baby come on dance with me oh  
Hate the red and whites of call men so clean  
Oh baby, baby come on dance with me  
Oh no I won't mind if they see  
Oh baby, baby come on dance with me  
Oh baby, baby come on dance with me  
Oh baby, baby come on  
Oh baby, baby
