

# Wish You Never Met Me

## Papa Roach

This is the moment that I've feared the most  
Helplessly watching as we turn to ghosts

Is it over ?

Tell me if it's over

This is the hardest thing I've ever done  
Hopelessly waiting as you turn and run

Is it over ?

Is it really over ?

I promised you that I would change

Then I broke it in a million ways

I alone take the blame

While you take everything...

Why can't we start this over ?

What have we done to us ?

You say that you need closure

Are you just giving up on us ?

I refuse to fade away

As you're trying to forget me

Take my heart and walk away

Like you wish you never met me

Now that I know that you're not on my side

What good is love if it's always denied

Is it over ?

Is it really over ?

I swore to God that I could change

But I let you down a million ways

I alone take the blame

While you take everything...

Why can't we start this over ?

What have we done to us ?

You say that you need closure

Are you just giving up on us ?

I refuse to fade away

As you're trying to forget me

Take my heart and walk away

Like you wish you never met me

Like you wish you never met me

Like you wish you never met me

Like you wish you never met me  
Do you wish you never met me ?  
Why can't we start this over ?  
What have we done to us ?  
You say that you need closure  
Are you just giving up ?!  
Why can't we start this over ?  
What have we done to us ?  
You say that you need closure  
Are you just giving up on us ?  
I refuse to fade away  
As you're trying to forget me  
Take my heart and walk away  
Like you wish you never met me  
I refuse to fade away  
As you're trying to forget me  
Take my heart and walk away  
Like you wish you never met me  
Like you wish you never met me  
Like you wish you never met me  
Like you wish you never met me  
Do you wish you never met me?
