

# Needed

## tuneage

You say you hate to bother me  
Baby, I'll be right there  
You're having one of those days  
I can see right through this phone  
Nothing's out of my way  
You can't ask too much  
I'm just thankful to be  
The one you lean on  
So, lay your troubles on me  
That's what I live for  
Makes me feel so complete  
It's the reason I was born  
Baby, what makes love, love  
And gives my life meaning  
Is to be needed, needed  
I know this ain't easy  
Sometimes, we try so hard  
That we just end up overworked  
And overwhelmed  
That's why I've got this shoulder  
And two arms open wide  
You won't ever have to  
Do it by yourself  
Lay your troubles on me  
That's what I live for  
Makes me feel so complete  
It's the reason I was born  
Baby, what makes love, love  
And gives my life meaning  
Is to be needed, needed  
Baby, what makes love, love  
And gives my life meaning  
Is to be needed, needed  
I wanna be needed, needed
