

The Squeeze

Kid Icarus

This brick
Which is gripped by my fingers
Which shoot out from my hand
Which is fastened to my arm
That meets up with my shoulder
That sits well below my head
That surrounds my brain
Which is tied up with thoughts of resent-
Ment, fear, and loathing
Because of your using me in your road to
Wealth and power
Will crash through your picture window
And kill you
We gon put you in the squeeze
We gon put you in the squeeze
The city is a planet of glass and granite
And it's ran by some masters of mack
Mechanics
We got schools where the facts are
Banished
We got scams where your stocks'll vanish
And the hospitals is gon cost you racks
So panic
All the gangsters throw your triggers up
All the stoners throw your flickers up
All the drunks throw your liquor up
All the bank tellers stick em up
Teach them babies how to grip a buck
When this hits the streets it's
Thunder with thesis
We'll show where the beast is
Make sure it decreases
They smolder with speeches
We shoulder the leeches
Call off them polices
This ain't where the thief is
Janitors
Work all night like Dracula
Burger flippers grab your spatulas

Managers

Get your Acuras

Big bosses guard your sack because

We'll put it in the squeeze

Squ-squ-squ-squ-squeeze

Squ-squ-squ-squ

We gon put you in the squeeze

Squ-squ-squ-squ-squeeze

We gon put you in the

We gon put you in the

World poverty has just gone platinum

Unemployment checks

Need to come with a gat in em

Chains and leather whips

Slave masters still crackin em

This is where I'm scattin from

Listen to the battle drum

We all got our shackles on

Ladies shoot your deuce-deuces

Bankers tip your masseuses

Wardens tighten up your nooses

Muthafuckas make noise if you bought

Your clothes boosted

The earth is composed of space and

Atoms

And controlled by some pimps

Without Stacy Adams

But one day they're gon taste the cannon

When the people rise up

And make them muthafuckas face the dragon

Mercenaries show your paychecks

Homeless folks show your blankets

Rich folks throw your banquets

Tell officials what to say next

Cuz they won't be at ease

When we put em in the squeeze

Squ-squ-squ-squ

We gon put you in the squeeze

Squ-squ-squ-squ

We gon put you in the squeeze

Squ-squ-squ-squ

We gon put you in the squeeze

Cuz they vote with their guns

Cuz they vote with their guns

Cuz they vote with their guns
Cuz they vote with their guns
Cuz they vote with their guns
Cuz they vote with their guns
Cuz they vote with their guns
You know they vote with their guns
