No warning from the sun
Hornet, wasp, or hoverfly
Even the birds have their alibi
All hummingbirds must die
All hummingbirds must die
I want you, I need you, but I can't find you
I need a killer to take my pain away
I need a killer to take my pain away
And Christ on a bike with carpet burns keeps falling to his knees
In the United States of American death
Cross-pollinating disease
And when I reach the station in the heaven of glass
I'll say a little prayer for you
And when I reach the station in the heaven of glass
I'll say a little prayer for you

("Colour Sound Oblivion DVD #6" Version)

Me and my shadow, me and my shadow
Me and my shadow, the black shadow of Cher
Me and my shadow, me and my shadow
Me and my shadow, the black shadow of Cher
Me and my shadow, me and my shadow
Me and my shadow, the black shadow of Cher
Beware, beware the black shadow of Cher
Beware, beware the black shadow of Cher

You gotta go further back and faster!"

In fact, you've gotta go
When you gotta go
When you go
When you gotta go
You gotta go backwards
Backwards, backwards
Yeah, backward, backwards
