

You Touch My Brain

George Duke

You touched my brain
My heart and mind and soul is all the same
Yes it is
You touched my brain
When I feel you near I just might go insane
But every time I hear you call my name
I get this feeling I can't explain
Then you'll tell me to stop
And make me drop like a shot
Girl you touch my brain
My body and soul I'm telling you is all the same
Yes it is
You touch my brain I know it's me and not you and I'm to blame
Well I've got nothing to lose and so much more to gain
You touch my brain
Yes I know, yes I know, I'm feeling no pain Do do Ohhh When you're near me I feel your flame
My body is churning I tried to explain
Just don't make me stop
Oh please don't make me drop
Well you touch my brain
My heart and mind and soul it's all the same
Yes it is you touch my brain
It's you just being you and made no pain
But I got nothing to lose and so much more to gain
You touch my brain You touch my brain
You touch my brain
You touch my brain
You touch my brain
You touch my brain
