

Yesterday's News

Whiskeytown

Well travellin' to the point that I, I can't stop it
Get so familiar, never get enough
Talk about it all the time, just drop it
Damage on your pretty little eyes says it all I can't stand to be under your wing
I can't fly or sink or swim, it's a lot like fallin' down
Standin' up and I'm fallin' down, your my cup 'til I understand
Wait a minute and see the pieces don't fit this time Well, yesterday's news is what I have been readin'
See you at the Comet and I end up needin'
Know if you were thinkin' it, it could have been
If it was nothin' it's 'cause nothin's what you did I can't stand to be under your wing
I can't fly or sink or swim, it's a lot like fallin' down
Standin' up and I'm fallin' down, your my cup 'til I understand
Wait a minute and see the pieces don't fit this time
