Hers Is the Twilight

Moonspell

From shadow born
Not a single reason to go on
Darker days ahead
We forgot about, when too far goneIn her twilight time
Testimony of skin
A ghost in the rain, cursing us by
In her twilight timeFrom shadow bound
What's left of life?
Remains of the earth
That once we called home
But our hands expiredIn her twilight time
Testimony of skin
A ghost in the rain cursing us by
In her twilight time
Hers is the twilightFrom shadows torn
We know it's too late
Darker days arrived
Our times of plague
Our times of plagueIn her twilight time
Testimony of skin
A ghost in the rain cursing us by
In her twilight time
Hers is the twilightThe scars of the earth
Won't heal with light
These are twilight times
These are scars of mine, mine
