

# It Could Be the Same (Vemixed)

## Van She

She don't notice him  
The way he don't talk about it  
It could be the same  
They way guys talk about it And you don't notice them  
They way guys talk about it  
It could be the same Since I feeling  
I felt something wrong  
These words that I'm dealing  
They ch.ch belong  
He don't notice her  
The way she don't talk about it  
It could be the same  
They way guys talk about it And you don't notice them  
They way guys talk about it  
It could be the same  
(X5)  
Since I feeling  
I felt something wrong  
These words that I'm dealing  
They ch.ch belong
