

Bad About You

[Olivia Newton-john](#)

There's four words on the tip of my tongue
That I wouldn't say to just anyone
Maybe I'm crazy to say them to you
My heart's fighting
Sweet temptations since you sparked my imagination
Baby, baby, I'm bad about you

Trying hard to keep control
And tell you more than you need to know
Anything to keep my cool, tow the line not break the rules
I've been good for most of my life
But you could change all that tonight
Baby, baby, I'm bad about you
