

Anticipation

Blonde Redhead

Anticipate and evaluate
What he thought
And what I thought before
You're broken like me
Like me before Dark place is your place
I take dark drive to your place
You're staring me
You're staring with your inside eyes Knowing you, knowing me
We're deeply sorry
You're broken maybe baby Maybe it didn't happen
Maybe all of this would go away
And if we're ever young again
He'll anticipate
We'll evaluate
