

This One's for the Children

Jimmy Edgar

This is a very serious message, so all of you please listen
There are some people
 Living in this world
 They have no food to eat
They have no place to go
But we all are God's children
 We have to learn to love one another
 Just remember, they could be us
Remember, we all are brothers
I'm not tryin' to darken up your day
 But help others in need
And show them there's a better way
This one's for the children
 The children of the world
 This one's for the children
May God keep them in His throne, hoo
Many people are happy
 And many people are sad
 Some people have many things
That others can only wish they had
So for the sake of the children
 Show them love's the only way to go
 'Cause they're are tomorrow
And people, they've got to know
I'm not tryin' to darken up your day
 But help others in need
And show them there's a better way
This one's for the children
 The children of the world
 This one's for the children
May God keep them in His throne
This one's for the children
 The children of the world
 This one's for the children
May God keep them in His throne
This one's for the children
 This one's for the children
 This one's for the children
This one's for the children
This one's for the children
 This one's for the children
 This one's for the children
 This one's for the children
