Set It Off

Diplo

I want to set it off
I want to set it off
I want to set it off
I want to set it off
I want to set it off
I want to set it off
I want to set it off
I want to set it off
I want to set it off
I want to set it off
I want to set it off
Set it off, set it off, set it off, set it off,
Set it off, set it off, set it off, set it off,
Set it, set it, set it, set it, set it, set it, set it, set it, set it
Let's go!I want to set it off
I want to set it off
I want to set it off
I want to set it off
I want to set it off
I want to set it off
I want to set it off
I want to set it offI want to set it off
I want to set it off
I want to set it off
I want to set it off
I want to set it off
I want to set it off
I want to set it off
I want to set it off
