

Lost in the Night

Peabo Bryson

A light shines in your eyes and it burns through my soul till my heart feels the fire;
Tonight is all we'll ever know;
So let's take what we can and let's find a way to forget that we're all so alone. You'll be my shelter from the
storm and I will keep you safe and warm.
We'll take this moment and make this moment last forever.
We'll never let the morning come.
We'll hide away from the light;
Hold on to this magic we've made til we're lost in the night. Our days fly by so fast ...in the heat of our heart
love can slip through my fingers;
Tonight is all that's yours and mine . . . so let's give what we've got and let's take this dream that we've found
and suspend it in time.
You'll be my shelter from the storm and I will keep you safe and warm. We'll take this moment and make this
moment last forever.
We'll never let the morning come. We'll hide away from the light . . . hold on to this magic we've made til
we're lost in the night. Oooooohhhhh. Let's hold on to each other and get all tangled up in these feelings we're
feeling.
Hold on to one another . . . for as long as it takes us to feel like we're one.
(Feel like we're one) We'll keep holding back the sun...
(You'll be my shelter)
You're gonna be my shelter...
(And I will keep you warm)
I'm gonna keep you safe and warm
(We'll take this moment)
Take this moment make it last forever...
Ooohhh Tomorrow never has to come if we can just hold on tight, baby and believe in this love that we've made
til we're lost in the night
And believe in this love that we've made til we're lost in the night. Hold on baby... Ohhh hold on...
