

Forever Young

Kim Wilde

Forever young, I wanna be forever young

Maybe we can stay and dance for a while
Heaven can wait, we're going out in style
Baby, we can change our lives tonight

So let us die young or let us live forever
With nights like these that we will always remember
Girl, we're gonna shake this town tonight

'Cause I wanna be
Forever young, I wanna be forever young
Do you really wanna live forever
Forever and ever?

Forever young, I wanna be forever young
Do you really wanna live forever
Forever and ever?

Baby, we can sing our way through time
These minutes are ours gotta make them shine
This ticking from a clock up in the sky

We don't wanna try and beat it to the end of the race
Wanna dance in the streets because we love the taste
Tomorrow night. we're back for another bite

'Cause I wanna be
Forever young, I wanna be forever young
Do you really wanna live forever
Forever and ever?

Forever young, I wanna be forever young
Do you really wanna live forever
Forever and ever?

Forever young, forever young
We'll always be forever young

'Cause I wanna be

Forever young, I wanna be forever young
Do you really wanna live forever
Forever and ever?

Forever young, I wanna be forever young
Do you really wanna live forever
Forever young?
