

# Like an Angel

## Duran Duran

Things that you used to say  
Now take on different meanings, you realize  
Can't be too careful about the lines Come on you know you're not so young  
You cannot hide behind disguise  
Listen to your own desire Eyes like an angel, so wise, don't lie  
You never felt like this before  
Fly like an angel, so high this time  
You send your senses streaming free Places you used to go when you were young  
Look different in the dark, don't you worry it's okay  
And maybe I can help you find your way tonight  
I think you will agree, summer reason's run away Eyes like an angel, so wise, don't lie  
You never felt like this before  
Fly like an angel, so high this time  
You've got your senses streaming free Oh, I hear your heart beating even faster, now, than mine  
Now, you know just what I mean  
So, take your place among those twilight gleaming rivers that you read  
Give me reasons to believe Eyes like an angel, so wise, don't lie  
You never feel like this again  
Fly like an angel, so high this time  
You send my senses streaming free Like an angel  
Like an angel
