While We Are Here

Mike Bauer

Verse 1:
Two little faces that I recognize, gorgeous smiles with big blue eyes, thank god your dad is the man that he is.
I've known your folks just over ten years, I knew one day they'd bring you both here, I watched them seal promises with a kiss.Chorus:
Though I know you have changed our lives, I see my friends just a little less time, it's not all about the amount we share but the things we do while we are here.Verse 2:
May you both have your mother's grace, your father's luck to help you through this place, but please tie your shoes just in case you trip.
Never be afraid to cry, do your best and don't tell lies, win or lose your family will always love you.Chorus:
