# World Ablaze

## Killswitch Engage

Can you feel it?
The expectancy of our deepest desires
In one moment, in one second
Watch it all burn
Or do I?You and I will stand as one
You and I will be transformed
This is the promise, this is the gift
We hold this truthFall, shed the weight of this world
The burden has been lifted
Let it all fall, let it all fallSet this world ablaze
We alone remain
Don't fear what awaits
We alone remainYou and I will stand as one
You and I will be transformed
Go, shed the weight of this world
The burden has been lifted
Let it all fall, let it all fallSet this world ablaze
We alone remain
Don't fear what awaits
We alone remainLet the skies turn black
Let the infection burn
This is the new beginning
Embrace eternityLet it all fall
Set this world ablaze
Let it all fall
Set this world ablaze
Let it all fall
Set this world ablazeLet it all fall
Set this world ablaze
Let it all fall
Set this world ablaze
Set this world ablaze
