Strange Feeling In the Night

Lucy Schwartz

I heard you walk in late last night
You slipped inside turned out the lightBut theres a strange feeling
When you know something ain't right
Theres a strange feeling in the nightShe whispers secrets in the dark
And waits to hear the morning larkBut theres a strange feeling
When you know something ain't right
Theres a strange feeling in the nightWhen the moon comes tumbling down
And as the stars go out
Theres a shadow in the corner of the streetlight
And this feeling I got well it just aint rightOooo weee, ooooo weee
The wind seems to howl as it tickles the trees
Oooo weee, ooo weee
Somebodys footsteps are following meBut theres a strange feeling
When you know something ain't right
Theres a strange feeling in the nightI heard you walk in late last night
You slipped inside turned out the lightBut theres a strange feeling
When you know something ain't right
Theres a strange feeling in the night
