

Look Into Your Heart

Aretha Franklin

If you look into your heart
With a positive mind
Take some inventory of your woman and your glory
Leave the bad things behindEverybody's got a story, yes, they do
About love and the good things
But for the spices of your life, you have got to pay the price
If you know what I mean, yeahTelling everybody, I'm letting you know
How a girl becomes so proud
When I thought that there was nothing left
I do believe I found myself and I want to give it to you, baby
Oh, yeah, yeah, yeah, yeah, babySo if you look into your heart
With a positive mind
Go ahead, take some inventory of your woman and your glory
Leave the bad things behindI know my man, he really loves me
We don't have that every day
I know my man really needs me and whatever he want to do
I wanna do it with you, baby, yeah, yeah
Oh, mercy, baby, mercy, babyYeah, yeah, yeah, dark of the night
Love's not an easy game and he's strong, he's straight
Now that I see what he's giving me and whatever he wanna do
I wanna do it with you, babyHey baby, loving you more and more and more
And giving you all, all you need, yeah, yeah, mercy baby
Loving you more and more and more
And giving you all you need, ooh baby, more, more
Mercy baby, mercy baby, mercy baby
