

# Towing Jehovah (Demo)

## Converge

Well worn wings crumble  
too tired to forgive and too battered to ever forget  
I am the labour I am this  
I hang as your beloved hex  
I'll bring the nails and fevers of bad dreams  
Nail him  
Burden her  
Kill you  
Bury them  
Its all the same  
Great leveller, try to forget my name on a day like this  
Holding your rope, try to forget me now
