Good Enough

Darren Hayes

If I woke up late

Couldnt get out of bed

If I bought you a caf latte insteadIf I lied when I said

Thirty-two inches was the size of my waist

And can I admit

Every once in a while

Even though I dig alternative styleOccasionally

I can be caught dancin to Brittany

And can I confess

That art house doesnt turn me on

But I like every single thing that Spielberg's doneCould I be good enough

Could I be good enough If the going got worse

And the worse got rough

The days became endless

And harder than toughId be good enough

Better than best

Would be simply

To be good enoughIf everything I give

Doesnt seem like a lot

If its all that I got

Baby, tell that could be good enoughWhere I grew up

The rent was cheap

Though we always had enough to eatDidnt have fancy clothes

I never really cared

'Coz there were shoes on my toesAnd motherly love

I knew it like the back of my hand

She always had a way to make me understandI could be good enough

I could be good enough

If the going got worseAnd the worse got rough

The days became endless

And harder than toughId be good enough

Better than best

Would be simply

To be good enough If everything I give

Doesnt seem like a lot

If its all that I got

Baby, tell me that could be good enough'Coz I dont know which way this road is gonna turn

But I know its gonna be fine

But there are some days no matter how much Ive learned

That the road gets toughAnd I dont feel good enough

But if youre giving me some of that loving

Could you pass some over

Let me cry on your shoulder and tell me baby

I could be good enoughIf I lost my job

And my hair fell out

If I made no sense

And I scream and shoutWould you laugh at me?

Never take a word I say seriously

And if Im out in the cold

Waiting in the back of the line

Too afraid to drop my name for fear of declineCould you tell me Im good enough?

Could I be good enough?

If the going got worse

And the worse got roughThe days became endless

And harder than tough

Id be good enough

Better than bestWould be simply to be good enough

If everything I give

Doesnt seem like a lot

If its all that Ive got

Baby, tell me that could be good enough I need to know that I could be good enough

Because everybody wants to feel good enough

Show me, baby, tell me

Come on a prove it, baby and give it to me
