Rosalie

QL

She's quite the mediator A smoother operator you will never see She'll see you later No one dare disobey her openly She knows music I know music too, you see She's got the power The teen queen, Rosalie Rosalie, Rosalie Rosalie, Rosalie She's got the pleasure Comes from all the cornerstones of the world She's so fantastic She's everybody's favorite little record girl She knows music I know music too, you see She's got the power I got the power, Rosalie

Rosalie, Rosalie, yeah Rosalie, Rosalie Down on me, Rosalie Shine on me, will you please From 'Chattanooga' to good old 'Booga Loosa' You can hear her fine She makes the choices Then you'd best be smiling when it's choosing time She knows music I know music too, you see She's got the power She is a tower, Rosalie Rosalie, Rosalie, yeah Rosalie, Rosalie, yeah Rosalie, Rosalie, yeah Rosalie, Rosalie, yeah Rosalie, Rosalie
