

Stolen Away On 55th & 3rd

Dave Matthews Band

Hello again
Seem like forever between now and then
You look the same
I mean you look different but you haven't changed
Funny to think how the time gets away
Funny how you take me right back again Stole me away
First time I saw you, you did me that way
What should I say?
I saw you laughin' and I was afraid
That I'd get in the way I did not think I would see you again
So how have you been?
Do you remember I may lose everything?
Funny I think how the time gets away
Funny how you take me right back again Stole me away
First time I saw you, you did me that way
What should I say?
Saw you there dancin' but I was afraid
I might get in the way I did not think I would see you again
Funny to think how the time gets away
Funny how you take me right back again
Funny the feeling when falling for this Stole me away
First time I saw you, you did me that way
What should I say?
I saw you there dancin', well I was afraid
I might get in the way Never thought I would see you again
How have you been?
Watchin' the years as they trickle away
It's everything how our time gets away
Funny how you take me right back again Steal me away
It's like the first time I saw you, you do me that way
What should I say?
I see you here standin' and I am afraid
I might get in your way I never thought I would see you again
How have you been?
Do you remember I mean everything? You steal me away
Like the first time I saw you, you do me that way
What can I say?
That's you here standin' well I am afraid
I might get in your way
