

# Just A Touch

## Alunageorge

I'm not hard as a rock  
I'm just not easy to break  
But don't take it  
as an open invitation to try Cause I'm just hoping this time  
that it's all in my mind  
I won't find  
that there's anything to worry 'bout [Bridge]  
I want you to be yourself  
I love it when I see you having fun  
I don't wanna be your shadow,  
sadness taking away the sun And you can call me a fool,  
but I just wanna see my baby smile  
I don't wanna kill the mood,  
I don't care if I'm in denial [Chorus]  
It's just a touch,  
so baby I don't want to know  
It's just too much,  
so baby you don't need to show It's just a touch,  
been cool to be friends  
No telling me next time (telling me next time)  
telling me next time You think I'm cold as ice,  
I'm just not easy to burn  
But don't turn me into someone  
who break down and cry Let's get this thing on the line,  
keep it simple somehow  
There's no need,  
for fixing what's not broken now [Bridge]  
I want you to be yourself  
I love it when I see you having fun  
I don't wanna be your shadow,  
sadness taking away the sun And you can call me a fool,  
but I just wanna see my baby smile  
I don't wanna kill the mood,  
I don't care if I'm in denial [Chorus]  
It's just a touch,  
so baby I don't want to know  
It's just too much,  
so baby you don't need to show It's just a touch,  
been cool to be friends

No telling me next time (telling me next time)  
telling me next time I know jealousy is wrong,  
but the feeling's too strong  
And it takes me too long,  
to believe it's not real So if it's innocent,  
don't push me into it  
Cause I can't handle it,  
if you're only teasing [Chorus]  
It's just a touch,  
so baby I don't want to know  
It's just too much,  
so baby you don't need to show It's just a touch,  
been cool to be friends  
No telling me next time (telling me next time)  
telling me next time
